

RAISING THE BAR

Following a very successful Bingo fund raising event in December students will be enjoying the warmer spring weather with the addition of a new outdoor gym.

The money raised has been used to buy the materials for a fantastic outdoor gym installation. Students were asked what they felt would enhance the school and they decided they would like to have more activities at lunch and breaks as well as improve their own fitness, so the concept of the outdoor gym was created.

Students designed and researched different commercially available outdoor gym pieces and created a wish list of equipment. This proved to be rather expensive, but thanks to the creativity, persuasive skills and workmanship of a dedicated staff team we have made all of the pieces from scratch.

We do need to thank all of the local community including the town hall, business' and charity organisations for donating and contributing to the fund raising event.

We are pleased that students will be able to enjoy the new pull up bars, agility bars and step up logs.

A fantastic effort from all of the Wisbech On track team.
